

IN3 – Test

Ime: MITJA Priimek: ŠEVERČAK

R: 3.

ŠT: 10/10

1. V preglednico napišite, kako se spreminjata vrednosti X in Y v navedenem diagramu poteka.

Preglednica:

X	Y
5	8
7	8
9	8
6	8
8	8

X	Y
5	8
5	8
7	8
9	8
6	8
8	8

2. V Pythonu napišite kodo, ki izpiše največje in najmanjše število za 100 celih števil.

`stevila = [5, 2, 1, -6, 8, ...]
print(min(stevila))
print(max(stevila))`

(4 točke)

4

3. V Pythonu napišite funkcijo (def), ki za dva vhodna podatka ime in priimek izpiše samoglasnike za ime in priimek ter število vseh samoglasnikov.

```
def samoglasniki(ime: str, priimek: str):
```

```
ai = 0
```

```
ei = 0
```

```
ii = 0
```

```
oi = 0
```

```
ui = 0
```

```
ap = 0
```

```
ep = 0
```

```
ip = 0
```

```
op = 0
```

```
up = 0
```

```
for i in ime:
```

```
if i == "a":
```

```
ai += 1
```

```
elif i == "e":
```

```
ei += 1
```

```
elif i == "i":
```

```
ii += 1
```

```
elif i == "o":
```

```
oi += 1
```

```
elif i == "u":
```

```
ui += 1
```

```
for i in priimek:
```

```
if i == "a":
```

```
def samoglasniki(ime: str, priimek: str):
```

```
    n = ime f"{ime} {priimek}"
```

```
    sam = 0
```

```
    for i in n:
```

```
        if i in "AEIOUaeiou":
```

```
            print(i)
```

```
            sam += 1
```

```
    print(sam)
```
